

# Specialist Tax Planning and Mitigation

**Paying tax is a fact of life. And life is easier when you pay what you are due to pay, when you are due to pay it.**

*But the amount of tax you pay is up to you*

Some taxes can be said to be 'voluntary', since with the necessary knowledge, expertise and forward planning the amount you 'volunteer' to pay can be reduced.

*Get the right knowledge at the right time and you can keep more of what you earn every year.*

Although this is easier said than done. Tax regimes change regularly and become increasingly complex.

The highly experienced team of Sibbalds tax specialists look at all areas of planning for you, from **capital gains tax** to **overseas tax**.

The key to their success is building a positive relationship with you to get to know you and your situation well.

This allows them to understand how changes in legislation affect you, how best to change your tax arrangements and how you can minimise the tax you pay on an ongoing basis.

*Your first step towards taking full advantage of the tax savings open to you...*

Take one simple step and you can see how many of the tax savings available you are currently making use of.

The Sibbalds '**Taxability Checklist**' will help you to start cutting your tax bills down to size!

“ *The key to success is building a positive relationship with you to get to know you and your situation well.* ”
